

M5 J4a to J6

Departure ID	Standard Subject	Workflow State	Date	DepartureSummary
73072	Drainage	Approved	13/11/2014	Increased flow width in hardshoulder
73073	Drainage	Approved	18/08/2014	Retention of existing drainage pipework on drainage networks (specific locations)
72943	Road Geometry	Approved	17/07/2014	Lane width reductions (specific locations)
72944	Road Geometry	Approved	17/07/2014	Reduced width nearside hard strip (specific locations)
72945	Road Geometry	Approved	17/07/2014	Reduced width and no offside hard strip provision (specific locations)
73350	Road Geometry	Approved	13/08/2014	Visibility of 1 mile ADS Sign and Signal Gantry (specific location)
73351	Road Geometry	Approved	13/08/2014	Visibility of gantry (specific location)
73352	Road Geometry	Approved	13/08/2014	Gantry position (specific location)
73353	Road Geometry	Approved	13/08/2014	Removes MS4 from Gantry G07 the Final ADS and Lane Control Gantry for M5 J4a
78259	Road Geometry	Approved with comments	23/02/2017	Move Proposed Gantry to avoid Badger Sett (specific location)
78260	Road Geometry	Approved	23/01/2017	Lane width reduction (specific location)
78715	Road Geometry	Approved	23/01/2017	Lane width reduction (specific location)
71690	Road Pavement	Approved	01/05/2014	ALR Sub-base
78114	Road Pavement	Approved with comments	17/10/2016	Use of Hot Rolled Asphalt (HRA) on structures
78746	Road Pavement SHW	Approved with comments	16/01/2017	Use of low temperature asphalt (LTA) pavement material (specific locations)
73313	Signals & VMS Non SHW	Approved with comments	22/09/2014	Remove consumer unit and replace with BS88 fuse carriers (specific location)
73687	Structures	Approved with comments	22/09/2014	Resuse of MS3 gantries with access provision
72597	Structures SHW	Approved with comments	29/07/2014	Maintenance works, i.e Concrete Repairs
72676	Structures SHW	Approved	24/06/2014	Use the draft version - Protection of Steelwork Against Corrosion for the specification of gantry
72711	Structures SHW	Approved	24/06/2014	Use the Eurocode execution standard for steelwork.
72746	Structures SHW	Approved	23/06/2014	Use the Eurocode execution standard for concrete.
73256	Vehicle Restraint Systems	Approved	30/07/2014	Gantry plinth protection
73257	Vehicle Restraint Systems	Approved	30/07/2014	Gantry Plinth protection
73388	Vehicle Restraint Systems	Approved	15/08/2014	Use Steel Step Barrier (SSB) in central reserve (specific locations)
78234	Vehicle Restraint Systems	Approved with comments	21/09/2016	Verge length (specific location)
78235	Vehicle Restraint Systems	Approved with comments	13/01/2017	Non-compliant VRS length
78236	Vehicle Restraint Systems	Approved with comments	21/09/2016	Safety barrier / full height anchor (FHA) (specific location)
78239	Vehicle Restraint Systems	Approved with comments	20/12/2016	Safety barrier - Working Width (specific location)
78240	Vehicle Restraint Systems	Approved with comments	20/09/2016	Safety barrier - telecommunications transmission station and lighting column (specific location)
