Yes great! Happy for that to go forward.
Thanks

That's all fine.
I agree with 'land leaseholders'.

How about
'Any potential impact of the proposed **road scheme** on the pit structures and their setting need to be considered. However, because the arc of pits is poorly understood at present, and some way off from the proposed ~~road corridor~~ **Development**, this consideration will necessarily be preliminary, as is the discovery's current contribution to knowledge of the monuments within the World Heritage site.'

Are you happy with that?
If so I'll send a final to Anna.
Thanks,
Nichola

Nichola
A couple of further tweaks-do ring me if you want to discuss

Thanks
