Subject: Brockham Oil Well, Surrey

Hi [REDACTED]

Please can you advise as to the following as we are meeting with [REDACTED] on Wednesday and would like to be clear on the following:

- a) Has the FDP for production from the Portland beds for Brockham BR X2 expired ?
- b) Was there EVER an FDP for the Portland beds from BR X4 ?
- c) If the FDP for which Angus Energy have applied for the site is issued, will it address production from the Kimmeridge beds for well BR X2 or both BR X2 & BR X4Z ?

Regards, Ian
