For the attention of Mr D Askwith

Dear Mr Askwith

RELOCATION OF PREVIOUSLY DISMANTLED PROPOSED -HANGER, GAMSTON AIRPORT, RETFORD

Please find enclosed drawings indicating proposed new hangars.

The building is for the specific use of airfield operating and maintenance requirements and as such it is our understanding that a planning application is not required.

We can confirm that the intended use of the buildings falls within Section 18 of the Statutory Instrument 1995 No 418, Schedule 2, Article 3, Part 1, Class A.

Enclosed is a copy of the Airport's application to the Civil Aviation Authority for permission to levy airport charges which is currently in force under section 38 (3) of the Airports Act 1986.

In view of the fact that the Airport has this permission, Part V of the Airports Act 1986 confers on it the status of a statutory undertaker for the purposes of various pieces of legislation.

One of those pieces of legislation is the Town & Country Planning Development Order which allows it to carry on aviation related development of which you are already aware.
