For the attention of Mr D Askwith

Dear Mr Askwith

PROPOSED HANGARS - GAMSTON AIRPORT, NR RETFORD, NOTTS

Further to our previous correspondence, please find enclosed documentation indicating the status of Gamston Airfield.

Enclosed is a copy of the Airport's application to the Civil Aviation Authority for permission to levy airport charges which is currently in force under section 38 (3) of the Airports Act 1986.

In view of the fact that the Airport has this permission, Part V of the Airports Act 1986 confers on it the status of a statutory undertaker for the purposes of various pieces of legislation.

One of those pieces of legislation is the Town & Country Planning Development Order which allows it to carry on aviation related development and of which you are already aware.

We trust this clarifies the position. If you feel a meeting between our clients and the Planning Department would be helpful then please revert to us to arrange the same.

On the above basis, it is our understanding that both the hangars scheme and office scheme fall under permitted development.
