**Subject:** Development at Retford (Gamston) Airport

Hello David - I hope you are well.

Thank you for letting me have a copy of your letter to Peter Wade dated 3rd March 2008.

The only outstanding matter is the proposed canteen / cafeteria. You will recall that we propose to site it near the airside barrier between the terminal building and hangar 6. We are not sure yet whether we will use a prefabricated building or not.

In any event would you please let me have your views as to whether or not you accept it as permitted development. The facility is not intended for members of the public in general but for the use of the various operators at the airport including based pilots, ground staff etc. My own view is that it is permitted development since it is a building "in connection with the provision of services and facilities at a relevant airport".

I would appreciate your confirmation or otherwise.

I look forward to hearing from you.

Kind regards as always.

Royce Marshall
