Just to explain Minute 9

After Row Note 7 was withdrawn it appears that there is no longer any advice on 'discovery of evidence' – presumably this is an oversight?

The revised section 12 of CG deals with cases before the RoW Act 1932 (and now in s32 of the HA 1980) concerning evidence of maps and docs. One of the purposes of the 1932 Act was, according to Blue Book extra, to reverse some of the earlier case law. Thus a note to that effect is needed in the CG (otherwise these old cases may be seen to be of undue relevance).

Perhaps when someone has some white space, they could look at this?

Regards
