

1. Proposed amendment of Section 4 and 12 of the Consistency Guidelines

1. At the Sub-Group Meeting held on 30 January 2015, [REDACTED] raised, at Item 9, concern that the advice relating to the discovery of evidence had disappeared following the withdrawal of Advice Note 7. He also suggested that part of Section 12 of the Consistency Guidelines (Maps) is wrong. A copy of his email to me of 5 February, elaborating on his concerns, is attached for your information.

[REDACTED] has kindly looked at both of these matters for me and has proposed some amendments to the above sections 4 and 12 of the Guidelines. Details of her proposals are attached (track changes/comments).

If you have any comments, please can you forward them on to me by **2 March 2015**. The proposals will then be forwarded to Defra for clearance to publish.

If you have any questions with regard to this RoW Note please contact me in the first instance.
