

1. *Waymark*
2. DRDS Decision Templates

1. Please find attached *Waymark* Spring 2017.
2. We have discovered that the DRDS system does not accept our new reference numbers. In order to use the electronic template system you will still need to insert the 'authority code' for the case and then over type it with the correct reference. I have amended our administrative procedures to ensure that all cases forwarded to you from the date of this note will have the authority code marked along the top of the file for your convenience.

If you have any questions with regard to this RoW Note please contact me in the first instance.
