

1. Revised Defra Guidance for fact checking
2. Procedure Team contact list

1. Defra have just forwarded to us their first piece of revised guidance for fact checking. [REDACTED] has apologised for the short deadline but it arrived without warning. She has assured us that there will be forewarning for the remaining guides.

This section of the guidance concerns holding and sharing information about the network (to cover what is currently in Chapter 2 of Circular 1/09). Whilst this is not a section you would rely for your decisions very often, Defra would be grateful for any comments you may have. Please can you forward your comments to me by **12 midday 16 March 2016**.

2. For your convenience I have attached a temporary procedure team list. The main change of note is that I am no longer responsible for casework and that [REDACTED] is now working to [REDACTED].

When [REDACTED] takes over full responsibility for Charting, his casework will be divided up between [REDACTED] and [REDACTED]. A further list will be issued at that time.

If you have any questions with regard to this RoW Note please contact me in the first instance.

[REDACTED]
