

1. Schedule 14 Directions

2. Judgment – Ramblers' Association v SSEFRA CO/421/2016

1. I refer to ROW 02/2017 in which I attached a draft template for the new style 'Direction Decision'. I also asked for feedback regarding the suggestion that applicants ought to be sent (for information only) a copy of the OMA's response. On the basis that I have had no comments on the template, please go ahead and use it. A further copy is attached for your information.

Only one Inspector came back to me on the point about copying the OMA's response to the applicant. However, after discussing this with [REDACTED], we have decided that the applicant ought to receive a copy, but that there is no need for them to make comments. Our Desk Instructions will be amended accordingly.

2. Please find attached the judgment in the Ramblers (Burton Joyce) case which was successfully defended. The judge also refused permission to appeal to the Court of Appeal.

If you have any questions with regard to this RoW Note please contact me in the first instance.
