Dear Mr Rigby

Freedom of Information Act 2000 – Information Request

Thank you for your request for information under the Freedom of Information Act which was received on 13 December 2018. I can confirm that we hold part of the information you have requested. You asked the following questions, reproduced in **bold** below:

I am requesting the information regarding risk assessment for ambulance staff and the wearing of PPE in particular protective vest.

NEAS does not have a risk assessment that requires the wearing of body armour as it is not a control measure we consider for our operational front line crews. However, our Hazardous Area Response Team (HART) wear ballistic PPE only when involved in Marauding Terrorist Firearms Attack incidents.

I would also like the statistics relating to injuries received as a result of assaults on ambulance staff for 2018. Please categorise into groups:-

- **Physical assault**
- **Blunt force trauma**
- **Knife**

If you are not satisfied with the information we have provided, you can request an internal review which will be carried out by Mr Paul Aitken-Fell, who is the Trust's Consultant Paramedic and is someone not involved with your original request.

If you wish to follow this route, please contact audrey.turnbull@neas.nhs.uk who will commence the process on your behalf.

If you remain unhappy with the outcome of the review, you can ultimately complain to:

The Information Commissioner's Office
