<b>Service:</b> Information request	<b>Subject:</b> Email response requested	<b>Classification:</b> Request for information	
<b>Desc.:</b> I saw a petition against the opening of the north end of fordwater road in Chichester where a public way once joined Lavern and Chichester, and wanted to know about it as if it is true I am all for the opening of the byway and that a lot of the opinions on the petition were false negative stereotypes. I have attached a picture of the notice and when I looked at the river it have been blocked with thick gardening cutting in the river.

<b>Service:</b> Love West Sussex	<b>Subject:</b> Pothole	<b>Classification:</b> Request for service	<b>Enquiry Ref:</b> [REDACTED]
<b>Desc.:</b> Yep you guessed it. By now I'm lucky to have suspension left on my car! The road can't cope with vehicles using it. It is also disintegrating on a daily basis. You have done a 5 yds repair recently but that's not really any good when you have good vehicles using it as a fast run because the by pass is so bad. Sorry it the bypass and you will find the side roads last longer. This road has several deep potholes again forcing traffic onto the wrong side of the road. Extra information supplied by the user Which of the following best describes the location? : Please select The width of the pothole is best described as being similar to... : Please select The depth of the pothole is similar to... : Please select
