Date: 19 August 2013
Type of request EIR

Safety Inspections

I would be grateful if you would provide the following information in relation to the Council's survey and maintenance of the B1050 road which passes through Willingham, and in particular the section between the junctions of Berrycroft and Church Street:

Dates of all safety inspections undertaken on the carriageway in the last 12 months.
Please see attached

Details of all carriageway defects identified during inspections in the last 12 months.
Please see attached

Details of how carriageway safety inspections are undertaken, including whether walked or driven, the speed of the inspection vehicle and the number of persons in the vehicle.
This is a 2 man driven inspection, the vehicle is driven at 20mph

The intended frequency of carriageway safety inspections.
Monthly

Details of all complaints and/or enquires relating to the carriageway, received in the last 12 months.
Please see attached

The hierarchy classification:
B

The road/ section number:
B1050

The defect intervention criteria adopted in relation to the identification of all categories of carriageway.

The defect intervention criteria are based upon a risk assessment of the defect as detailed in the Network Management Plan.

<http://www.cambridgeshire.gov.uk/NR/exeres/74AE1B13-3F36-4E76-8087-07AD95F4D18D.htm>

The time period(s) adopted between identification and repair (temporary or permanent) of all categories of carriageway defects.

The time gap for repair is between 24 hours and planned maintenance depending on the nature of the defect.

Whether or not the authority has formally adopted all or part of the standards contained within the national code of practice for highways maintenance management

Yes the authority has adopted the standards contained within the national code of practice for highways maintenance management, in relation to safety inspections.
