 Capital Growth Project to identify 2,102 spaces for food growing by 2012.

Capital Growth Reference No.	Name of Project	Address	Description of Project	Run by
22	Dirty Hands Project	Valletta Grove, Plaistow	A bag and bed food growing system on an old basketball court beside the estate.	Dirty Hands community group
55	Newham City Farm	24 City Farm, Stanfield Road, Beckton, Newham, E6 5LT	Food growing site is located on an acre of land on a city farm. The construction of polytunnels, greenhouses and a biodigester will all help to make this a commercial market gardening venture. Work will be done by disadvantaged young people through structured training programmes.	Community Links
79	What will the harvest be at Abbey Gardens?	Abbey Gardens, Bakers Row, London, Newham, E15 3NF	In June 2009 Abbey Gardens (AG) was transformed from a neglected site into a food growing community garden as well as an innovative piece of public art with the help of artists "Somewhere". Friends of Abbey Gardens have taken over the management of the garden in 2010 and re-started regular gardening sessions. Volunteers come from the immediate neighbourhood as well as from other parts of London.	Friends of Abbey Gardens
98	Urban Allotment	387 Barking Road, Newham, E13 8AL	A roof top is being converted into an urban allotment. The site will be maintained by children from the youth centre who work alongside adults with learning disabilities who attend the nearby church	The Swift Centre
229	New City School Garden	New City Road, Plaistow, London, Newham, E13 9PY	A small, relatively unused part of our playground has been turned into a garden for the pupils to grow vegetables.	New City Primary School

255	East London Wine Collective	All the 7 East London boroughs have agreed in principle to provide growing spaces for the community urban vineyard sites.	Project for 7 East London boroughs - 30 vines will be provided to create urban vineyards in each of the growing areas. The community growing groups will receive training in vine care and community networking and each group will become members of the Urban Wine Company members network.	East London Wine Collective
271	Play, Sow and Grow	5 Gay Road, Newham, E15 2RN	The idea is to get children and families from this isolated area involved in all aspects of the growing cycle of plants to include planting, nurturing, harvesting, and eating. There will be space for community allotments to be used by local families, schools or organisations as well as raised beds which will be seeded, tended and harvested by the children and families using the project. There is a house on the site which has been refurbished with a large kitchen which will be used for making things such as pickles and jams, as well as devising healthy option meals for local children.	Community Links
280	Parent Community Vegetable Garden	Whitfield Rd, East Ham, London, Newham, E6 1AS	We currently have 6 raised beds in our school ECO garden. As many of our families live in accommodations without gardens, we wish to enable our children's parents to use these to grow their own fruit and vegetables. Each fortnight we have a gardening session where a member of staff provides help and training for the parents. Pupils are also involved with their parents.	St Stephen's School and Children's Centre

292	Dreams of Eden	30 Lorne Road, Forest Gate, London, Newham, E7 0LJ	We intend to grow a range of vegetables, herbs and fruit, and to garden organically. We also intend to link with other growers in the area. Some of the ideas we are considering include making our growing project the hub of a community orchard by organising the planting of heritage fruit trees in a number of gardens in the area; bee-keeping; and a summer fair with growing competitions and displays.	Dreams of Eden
297	Beckton Community Centre	East Ham Manor Way, Beckton, London, Newham, E6 5NG	The land is a grassed and paved area to the back of the community centre. It currently has two raised beds. The space will be used for food and flower growing as well as an area for relaxation. New Shoots, based at East Potential, will engage with current centre users, as well as other local residents by offering monthly horticultural training with Organiclea.	East Potential
301	Katherine Road Centre	Forest Gate , Newham, E7 8PN	The land to be used is a grassed area to the back of the community centre. It is currently a blank space with no seating area. The space will be used for food and flower growing as well as an area for relaxation.	East Potential
308	St. John's Community Centre	Albert Road, North Woolwich, London, Newham, E16 2JG	The land is a concreted area to the side of the community centre. It has a couple of flower beds and benches, and will be used for food and flower growing as well as an area for relaxation.	East Potential

317	Grow it! Eat it!	Woodgrange infant school	As part of the healthy schools programme we hope to encourage children to eat more healthily by involving them in growing their own fruit and vegetable. The fruit and vegetable grown will be used for classroom activities as well as be included in the whole school healthy meals dinner menu.	Woodgrange infant school
321	Let's get growing	Sandringham Road School, Forest gate, Newham, E7 8ED	The growing space is going to be organised for Key Stage 1 children to grow and maintain a variety of vegetables and herbs, with the hope of using them in the school kitchen.	Sandringham Road School
322	Allotment - Keir Hardie Primary School	Keir Hardie Primary School, Edwin Street, Canning Town, Newham, E16 1PZ	This year we are planting more of the type of food that the kitchen can use so that the children can actually eat more of the food they have produced. We would also like to try and grow some wheat this year so that the children can see the whole process of making bread - if only one mini loaf!	Keir Hardie Primary School
357	Gallions Grows	Gallions Primary School, Warwall, Beckton, London, Newham, E6 6WG	The space is an undeveloped part of the school grounds. We plan to develop a series of raised beds which will be linked to the school curriculum - e.g. a Tudor herb garden, a World War 2 allotment, etc - where the children can grow theme linked vegetables and cook with them.	Gallions Primary School
370	Off Shoot!	Clarkson Road , Canning Town E16, Newham, E16 1ED	We have a steering group including local food growing champions, some community groups who want users to grow food. We expect there will be a high demand for this site as there are 1000 people on waiting list for allotment in London Borough of Newham.	London Borough of Newham

408	Just Food	266 Shrewsbury Road, Forrest Gate, Newham	Just Food will mobilise volunteers to visit elderly and vulnerable adults in Newham and grow food in their gardens. This will allow isolated elderly people to be integrated into their community, provide fresh and local produce for both the elderly and vulnerable adults, and create funds through the sale of surplus produce.	Just Homes
430	Collect and Create	Earlham Primary School, Earlham Grove, Forest Gate, Newham, E7 9AW	The Gardening Club which is a weekly group of 8 pupils tends the plants in the area that previously housed refuse bins. The bins have now been moved and this has freed the space for container growing. The plants to be grown will be early varieties of potato, carrots, some herbs, radishes, onions, fruit possibly blueberry or raspberry, also some lettuce and basket grown strawberries.	Earlham Primary School
430	Go Green!	St. Joachim's Roman Catholic Primary School, Shipman Road, Custom House, Newham, E16 3DT	At St. Joachim's we aim to teach the children about where their food comes from, and how to grow plants and flowers. The school has two environmental extra-curricular clubs which both run after school. The clubs work both individually and as a team to create and maintain our new food growing area which we are trying to make as wildlife friendly as possible. We will be researching and using companion planting to encourage helpful insects and deter pests which we do not want. Our growing area is mainly made up of container pots and a few playground border areas, as space is at a premium at St. Joachim's, our playground is	St. Joachim's Roman Catholic Primary School
