Dear

Our Security noticed that the protesters appeared to building the start of a new tower, on the opposite side of the road to our red areas, on the pavement.

Photos attached where you'll see pallets in place and what appears to be the foundations of a new tower.

We called the Police who, with their Officers on site are handling the situation, we believe of their own accord. We hope they will be able to prevent a new tower being built, I'll update you if I hear anything different.

Also just to note, the protesters appear to be moving some of their possessions to the verge at the end of the heras fencing, to the right of the entrance (as you look at the entrance from the road). Maybe they're just throwing things away there as opposed to moving in but again, worth keeping an eye on.

I'll only update you further over the weekend if the building of the tower isn't prevented by the Police.
