Spoke to Colin re RF monies for Early Years. To provide a statement saying spend may include elements of C & V monies

He has pulled SC spend and has some info back from LCGs

Advised that JH is aware of the difficulties of quantifying data and will understand if we are giving indications that this represents the majority of spend and that resources are simply not available to interrogate each line to be 100% accurate

Advised that if a few ore days are required to take them and I will offer apologies to Jimmy for the additional delay as I would rather get as refined and accurate response as possible than rush to meet a deadline
