Notes	Year of admission	Data has been provided for the five previous cycles - the 2018-19 to 2022-23 admissions cycles (inclusive).
	Previous institution	Data has been prepared using the information that applicants provided in their application, as they provided it.
	Degree classification	Degree classification is taken from a self-reported free text field. Data is provided as supplied to us by applicants and is not standardised (so there is some variation in the format of the responses).
	Successful applicants	We have understood 'successful applicants/applications' to be those who were made an offer.
	Duplicates	The total number of applications listed by Grade and Previous University may be higher than the total number of offers made as the data includes applicants who have previously studied at more than one institution. The total number of offers made can be found on the 'Count of Offers' sheet.
