

Freedom of Information Request 352-2021

Request

Please provide scanned copies of all Personal Protective Equipment (PPE) Requisition Forms issued to Rotherham's COVID stores (the COVID stores) relating to distributions to each recipient domiciliary care organisation registered with the Care Quality Commission (CQC) during the period 1st March 2020 to 1st June 2020 inclusive.

These forms:

(a) were issued by the COVID stores/ RMBC with various collection dates.

(b) contain details of the recipient organisation as well as items and quantities of PPE stated as being distributed to / and collected by each of them on any particular date.

A single document containing all the requested scans in any logical order is acceptable. The organisation, amount(s) and the date should, in particular, be clearly visible.

Response

Please find attached documentation in response to your request.

The Excel spreadsheet provided shows the date of an actual requisition being processed, quantities of PPE requested, and quantities actually provided, against each Domiciliary Care provider.

The PPE run that relates to 24 and 29 April was a large, shorter notice one, so this is more manual based. Information has been redacted where the details do not relate to Domiciliary Care providers.

Please note that personal information (ie names and contact details) of individuals have been redacted in compliance with the Council's duties under the Data Protection Act 2018.

Please also see guidance that providers can access regarding the provision of PPE <https://www.gov.uk/guidance/ppe-portal-how-to-order-emergency-personal-protective-equipment>
