

## Response to Request for Information

**Reference:** 1459  
**Date:** 23 November 2011  
**Type of request** Freedom of Information Request

### **Subject Matter:** Supported Living Providers

As you are aware Supported Living providers are not currently required to register with the Care Quality commission. Therefore this information of suppliers is only available from Local Authorities. Please can you therefore supply a full list of all your supported living providers with full contact details including phone numbers and email addresses?

'Supported Living' is a model of service provision. We do have some contracted supported living providers and we also have contracts with companies that would enable them to set up shared services as providers of 'Supported Living Services'.

On the spreadsheet attached, Column A details either 'Specialist Home & Community Support' or 'Supported Living Services'.

Those identified as 'Supported Living Services' provide a shared service in the supported living model. The providers detailed as being providers of 'Specialist Home & Community Support' are contracted in a way that would allow them to set up supported living services.

Please be aware that there may be companies that have set up as supported living providers who have individual arrangements with private funders and we may not be aware of these at this time. If these are providing personal care, they would need to be registered with the Care Quality Commission.
