Ref 10: 07-2018

30 January 2018

Dear Ms Sport,

I am writing to update you on the consultation process for the proposed Cleve Hill Solar Park, and to share the enclosed Phase One Community Consultation Update with you.

Following our last meeting we welcomed around 500 people to our community consultation events held between 4 and 8 December 2017 across Sheppey, Faversham, Graveney and Seasalter. This first phase of consultation ended on 22 December 2017. The feedback that we have received from meetings with residents and from our events has been incredibly valuable. We received over 350 feedback responses. All of this feedback will be included in our Consultation Report, which will be submitted alongside our planning application.

We have been working through all of the feedback received and have produced the enclosed Phase One Community Consultation Update to highlight the key issues which were raised in the feedback and what actions we will be taking in response. Further, we are considering the comments and suggestions we received from the neighbouring properties in the development of our proposals.

We have also been conducting our ongoing consultation with technical consultees on our scoping report. With all of this information we are now able to produce more detailed project information and a revised layout. We would like to arrange another meeting with you to present this information and discuss our plans ahead of the second phase of wider community consultation.

Further, we have been conducting an ongoing consultation with technical consultees on our scoping report from which we will soon be able to produce more detailed project information and a revised layout. As well as this we are also continuing our Environmental Impact Assessment process where we will be inviting feedback to our preliminary environmental information in Spring 2018.

After this process is completed we will be consulting on our proposals with members of the public again at our second phase of consultation events, which are planned to be held around in Spring 2018.

In the meantime, if you have any questions or queries please do not hesitate to get in contact with a member of the team at the details provided below.

Yours Sincerely,

Hugh Brennan

For and on behalf of Cleve Hill Solar Park Ltd.
