Hi [REDACTED] & Leanne,

Further to our meeting last week please find below our quotation to assist with the preparation of preliminary drawings to enable you to progress the scheme with the various parties involved.

Our quotation include the following:-

1. Purchase of Digital OS map for the site and surrounding area.
2. Preparation of a Site Location Plan as Existing - Scale 1:1250
3. Preparation of a Block Plan as Existing - Scale 1:500
4. Preparation of a Site Plan as Proposed - Scale 1:200 - to include pitch (including lighting layout) and pavilion positions, forest school location, pedestrian and vehicular access to the site
5. Additional Meeting on site with user group to discuss proposals
6. Amendments to Site Plan layout as required
7. Organising and payment of costs Topographical Survey (church car park not included)
8. Preparation of 3D image

For the sum of £2,438.00 plus VAT

I have attached some guidance notes from Sport England on Pavilions together with some Accessible Sports Facilities Guidance and some standard changing room layouts, which should help you to give us an indication of the size of building to show in outline on the Proposed Site Plan Layout.

Best Regards

Subject: FW: Glebe Project Proposed Artificial Pitch on Land accessed from Moor Street, Gloucester GL1 4LA

Hi Leanne,

As discussed, I started Anderson Architecture in the January of 2012 after working for ASTAM Design/ASTAM GBC for 17 years followed by 5 years working for a property developer.

During my time at ASTAM Design and ASTAM GBC I dealt with a number of Artificial Pitch projects, which had associated changing areas and floodlighting.

As these projects were carried out some time ago and were not always based in the Gloucestershire Area, perhaps it is more relevant to use an example of a local project that our newest employee has worked on. Ivo who previously worked for ASTAM GBC and Integrated Architecture, dealt with the planning phase of the Abbeydale Community Centre facility, which I understand some members of your committee are aware of.

As far as timescales go, we will to a certain degree be in the hands of our land surveys, but after speaking to them this afternoon, they are currently on a 2 week lead-in period.

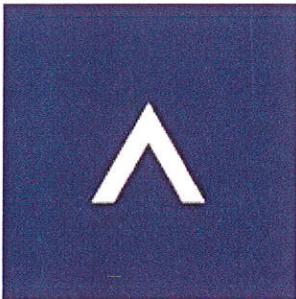

As discussed if a basic site plan drawing based on OS information would suffice we could produce this in time for the event in June this year.

If you require any further information please do not hesitate to contact us.

Thank you.

Best Regards

Hi [REDACTED]

Last night we held our Glebe Project steering group meeting, the group would be interested to know if the company have done similar project before if so do you have any examples you could share with us, perhaps go and look at? Also, should we go with your quote what would be your timescales for turnaround?

I look forward to hearing from you.
