

**Freedom of Information Request: 1041 2020/21**

**In 2016 you responded to a separate FOI request with the document "TherapeuticGuidelinesMyocardialInfarction 2016.pdf" (Your FOI reference 149-1617). I would like to know if these guidelines have been updated since then. Could you please either confirm that this is the current guidance, or provide a copy of any updated guidelines including the dates they were active; i.e. if the document was updated in 2018 and then again in 2020 please provide both versions and the corresponding dates.**

Please see attached documents - publishing dates and review dates are provided on the cover sheets of the guidelines.
