Unfortunately I cannot make that date/time, as you have been waiting for this for some time I would suggest that you try and get another councillor to attend – Elwyn for example.

I would advise that if you cannot get anybody to accompany you then it is re-arranged. I am ok next week Wednesday and Friday.

Hi Dafydd,

My apologies for the delay.

Would 10am Tues 19th March be convenient?

Thanks
Mike

Hi Dafydd,

I have a meeting Sgt Price on a separate matter on Weds morning, I will ask after his availability and then I can let you know when we are both free.

Kind regards
Mike

Hi Mike – as stated below Cllr Williams is hoping to bring a motion to our February monthly meeting on the 21st. Under our standing orders all motions must be with the clerk a week before the meeting. Obviously Cllr. Williams will need time to consider the wording of his motion – do you think you will be able to get back to him and arrange a site visit in time for this to happen?

Hi Mike blwyddyn newydd dda / happy new year – I appreciate that it has been the xmas / new year period but has there been any progress on this matter.

I am getting pressure from Cllr. Dafydd Williams who is hoping to bring a motion to the Community Council for support for the introduction of further measures – he is also asking if a site visit could be arranged between yourself, Sgt. Price, him and myself.

Hi Clive,

There are several CCC officers that will I will need discussions with as the original scheme was not delivered by our Unit, I will also need to discuss some of the queries with Sgt Price (GoSafe).

Bearing in mind we have a week left before xmas and the xmas period I'm afraid I'm unlikely to be in a position to give you a full response to all the queries raised below until early Jan.

I hope this is acceptable.

Diolch
Mike

Mike – in respect of an additional hump in Blaengwastod Road please see below some queries raised by Cllr. Dafydd Williams. Before the Council consider Cllr. Williams' motion that a further hump be placed in between the two that are already there it may be useful to have a response to the queries he raises, again if this is for another officer then please pass on.

Just a footnote we have had one email objecting to the proposal.

Clive,

I would be grateful if you could obtain the following information regarding "Speed Humps" for me please.

I know that Mike Jacobs and Ian Price PS121 work together and site on a committee that look at speed reduction on the roads.

1) What is the criteria needed for a road to have speed humps placed in it.

2) In order for speed humps to work effectively how far apart should they be placed to slowdown the traffic on the road.

3) If the gap between one speed hump and the next one is so spaced out that vehicles can reach twice the speed limit has this been probably planned out and what can be do to resolve this.

4) If a road is a 20mph and a “ traffic calming zone” I understand that the police will not do speed checks on that roads. Why??

5) If you place speed bumps on a public road I understand that you have to consult local residents. If you Have objections to them being put down then am I right in thinking you do not do this. What then happens to public safety on the road if they are needed?

6) If you have speed humps already in place and they do NOT do the job they were intended to do (slow down traffic) are they just left and forgotten about.

7) Do you monitor the efficiency of the traffic calming zone that you have installed and if so how often is this done?

8) Can you tell me when the speed humps were installed on Heol Blaengwastod Llangunnor, Carmarthen and If and consultation with residents took place if so was the outcome? Who requested the speed humps to be put down?

Kind regards/Cofion cynnes
