Dear Mr Hughes

**Re: Internal Review of FOI6908**

An Internal Review has been undertaken further to your Freedom of Information request relating to traffic counts in the village of Rossett, Wrexham.

You have queried why the information given does not appear to provide data for Chester Road (B5445), Rossett and have asked for clarification on the data that has been provided.

**Findings:**

Information and clarification was sought from the Traffic Management Engineers, based in the Environment Department.

Confirmation was provided that sites WXM 076 and WXM 075 as referred to the original FOI response do relate to surveys undertaken on Harwoods Lane, Rossett.

No surveys have been undertaken on the B5445 Chester Road, Rossett by Wrexham Council and therefore the Council cannot provide any information on this point. This review does not consider that you have been given false information or that the Environment Department has not provided all details of traffic surveys that they hold in relation to your request.

As part of the original response you received, it was suggested that North Wales Police may hold information relevant to your request and could provide further help in this matter. This remains the case.

If you are not content with the outcome, you have a right to take the issue to the Information Commissioner (ICO), who investigates complaints on information access. The Information Commissioner can be contacted at:

Information Commissioner's Office  
Wycliffe House  
Water Lane  
Wilmslow  
Cheshire  
SK9 5AF

Yours sincerely,

**Gareth Jones**
