Dear James,

Freedom of Information request: Travel Policy and Expenses - ref PSU - 70 - Additional Questions

Thank you for your additional questions related to your Freedom of Information request submitted on the 17 September 2014 in which you requested the following:

Your Request:

I note that the expenses for the past year were significantly higher than the prior year. Could you please send a list of all trips where the cost was greater than £1000 per trip along with details of where the trip was to and from and the cost per trip/stay.

Our response:

I can confirm that ESRC holds some of the information that you have requested. Our response is detailed below:

The main reason for the total expenses being higher in 2013/14 reflects how the data on travel expenses was available for reporting. In order to collect and report the data the invoices from the Council's travel provider needed to be examined. In 2013/14 there was more use of the travel contract by staff which is reflected in the higher figure. The figures in earlier years would not have included all expenditure so the figures are not directly comparable.

Please find in the table below the travel expenses for ESRC for 2013/14 for a single transaction was over £1000. The way the data is stored within our legacy system, we are unable to provide you with a list of trips or the time spent at each destination. ESRC doesn't hold this data. The table below gives you the type of travel related activity, destination, invoice amount and date.

The purchase of the Rail Season tickets was assessed as the most cost effective approach for travel given the frequency of meetings in London.

I hope this answers your questions.
