Dear Mrs Shipley

Freedom of Information Request

Further to your email dated 15th July 2020 and received by the Trust on 16th July 2020, requesting the following information:

Please can you detail how much expenditure there has been on providing cycle infrastructure and bicycle storage facilities and provision of security measures for staff and patients, broken down by year, and site, and whether staff or patient accessible from 2017 to 15 July 2020.

Trust Response

In 2017 there were no infrastructure upgrades undertaken on cycle facilities. The Trust did provide service provisions by an external organisation for staff at a cost of £1,500.

In 2018 a new shelter was purchased to be located on the Royal Hallamshire Hospital site with infrastructure upgrades and service provisions the Trust spent in the region of £6,000.

In 2019 with infrastructure upgrades on both Northern General and Royal Hallamshire Hospital sites and service provisions the Trust spent in the region of £3,500.

To date in 2020 with infrastructure upgrades on both Northern General and Royal Hallamshire Hospital sites and service provisions the Trust spent in the region of £3,000.

Staff members are the primary users of our shelters which have security access locks. We also provide shower facilities available on NGH and RHH site; 8 on NGH site and 4 on RHH campus.

There are also a number of metal frame cycle points across the sites which patients can use.

Please accept our sincere apologies for the delay in sending our response.

This completes the Trust response to your request, but please note:
