**Subject:** [EXTERNAL] RE: DfE Clawback submission 3

We are content to defer (but not waiver) clawback for children's centres, as the funding for the assets will continue to be used for purposes consistent with the grant (predominately early years). However we retain our interest in the assets and if in the future they have their usage changed, are transferred or otherwise disposed of, and do not continue to meet the purposes of the grant the local authority must inform us and we will consider clawback of the funding.

We are content to defer (but not waiver) clawback for **Waddesdon** children's centre, as the funding for the asset will continue to be used for purposes consistent with the grant (predominately early years calculated at 55%). However we retain our interest in the asset and due to its usage being at the limit of what we regard as 'predominately early years use', your authority must inform the department if in the future the early years usage that has been declared changes. Also if the asset is transferred or otherwise disposed of, and does not continue to meet the purposes of the grant the local authority must inform us and we will consider clawback of the funding.

Please find attached the next batch for review. There will be a final one after this (Wendover), which will be sent separately once details are finalised.

Best wishes
