

FOI: 18263189 Procedures/policies employed Social Workers

What are the procedures/policies to deal with situations where employed Social Workers -who have been found by internal LA investigation to not be meeting HCPC / council policy/ council standards/ national standards/ statutory standards?

If an employee has been found by an internal process (usually a disciplinary investigation) not to have meet the HCPC standards, then if appropriate, and in line with HCPC guidance, they would be referred to the HCPC. Further guidance can be found on the HCPC website.
