Hiya

I've taken a little film of the additional space. Can't send it via email so am hoping you can use this link.

[REDACTED]

There's actually not that much to do. Mostly getting rid of rubbish and tidying bits and pieces. Possibly some locks and potentially adding to the kitchenette, although I couldn't see what's there as the door was locked and no-one knows where the key is.

It will be a great space for a resource/drop-in centre, individual consultation rooms etc. Fab. Am thinking we could (eventually) have volunteers/whoever opening it up from say 10-2 each day for people to drop in or something Lends itself to that.

I've asked to meet with the NHSPS works guy to get a quote for what needs doing. Do you think [REDACTED] would fund this sort of capital works from any spare funds he has?
